

TAPE CUTTING DEVICES

COLD CUTTING

COLD CUTTING DEVICES:

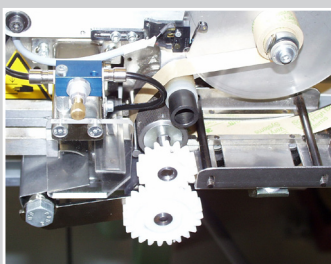

Cold cutting devices from 100 - 600 mm with a pneumatic cutter.

SPECIAL FEATURES:

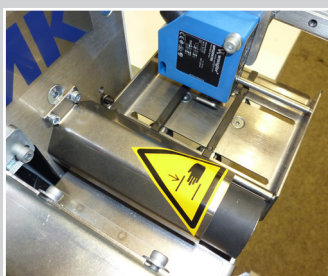

- Feed length is governed by a step motor
- 64 main programs, each with 8 subprograms
- Max. length 10 m
- Max. quantity 1000
- Length tolerance +/- 1 mm
- Straight / angled cut

UNIVERSAL APPLICATION OPTIONS AND SPECIAL SOLUTIONS

A versatile accessory range (e.g. photocell tape detection, marking equipment, hole punches and stackers) ensures that our devices can be used universally. We would be happy to create special solutions for you.

Special cutting device with cover film stripper

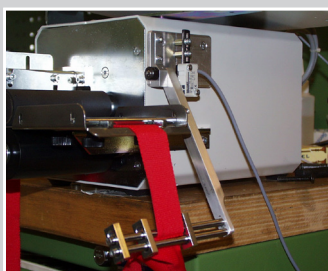

Special cutting device with marking reader

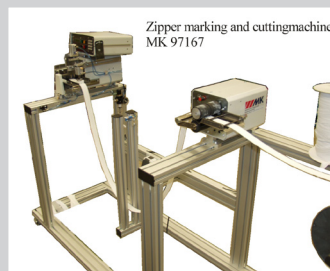

Tape cutting device 100/150 mm - double drive

Cutting system with conveyor belt for conveying counted and cut parts away

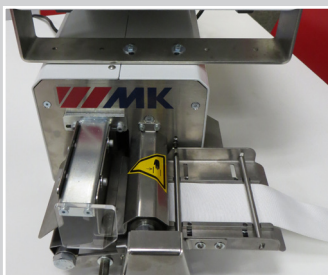

Cutting device with tape knotting stopping system

Cutting system with pneumatic cutter 100 mm for marking and cutting zippers with tape dispenser and dancer on caster frame

TAPE CUTTING DEVICES: COLD CUTTING

Tape cutting device 100/150 mm - double drive

Tape cutting device 100 mm with pneumatic cutter for cutting braiding cords, on caster frame

Cutting system 100 mm for cutting and marking zippers

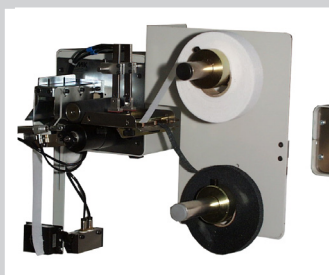

Tape cutting device 100/150 mm with pneumatic cutter

Tape cutting device 100 mm with hole punching cutter

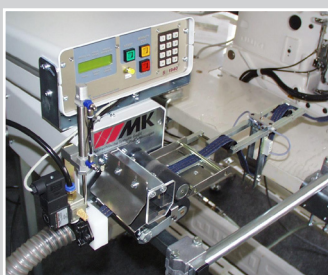

Tape cutting device 200 mm

Tape cutting device 2x 40 mm with pneumatic cutter for cutting two tapes

Tape cutting device 100/150 mm with pneumatic cutter and small tape roll holder

Tape cutting device 100 mm with pneumatic cutter and thickness sensor, suction, dancer control for cutting belt loops

Tape cutting device 50 mm with pneumatic cutter 30° incline

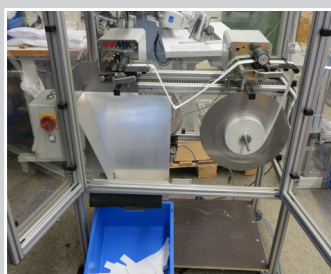

Tape cutting device 400/500/600 mm with pneumatic guillotine

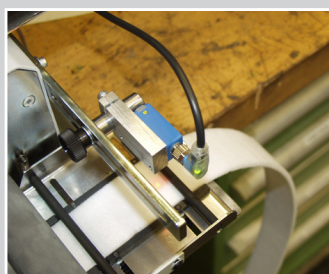

Tape cutting device 100/150 mm with pneumatic cutter on caster frame

Tape cutting device 300 mm with pneumatic cutter and tape dispenser on caster frame

Accessory tape dispenser

Accessory photocell for tape detection

Accessory stacking device in discharge
