

EDGE CUTTER UNITS FOR ALL CONVENTIONAL SEWING MACHINE MAKES

CENTER KNIVES FOR SEWING IN ZIPPERS

It is possible to sew in a zipper and simultaneously slit the material between the needles with the center knife edge cutter.

SPECIAL FEATURES:

- The kit can be retrofitted to any two needle machine and contains the following:
 - Knife drive with motor, speed controller and starting cylinder
 - Special throat plate with carbide lower knife
 - Special sewing foot with zipper guide
 - Upper knife made of special knife steel
 - Swing-down zipper guide
 - Tape roll holder with zipper divider
- It is possible to close the zipper automatically behind the transport foot with an additional device. A special puller behind the closing device contributes to better sewing results
