

EDGE BINDING

ZIGZAG SEWING FEET

For elastic materials – the two-part zigzag binder sewing foot.

SPECIAL FEATURES:

- Flawless conveyance of the edge binding, even at high speeds, due to different pressure settings of both sewing soles
- For sewing tight radii
- Extremely short right sewing sole

Special two-part zigzag sewing feet, for binders with over stitch widths of 4 - 8 mm and edge binding widths of 12 mm.

The two-part compensating foot offers different pressure settings on the sewing material and binder. Material conveyance is better as a result.
